1.Introduction

=====
Hello! I'm Chase Xavier Squires A.K.A (CXs), and i've been working on this hack for weeks upon weeks upon weeks!!! Now i'm finally finished working on it. I've made this hack hard, twisted, and quite possibly the most annoyingly frustrating LOZ hack you will play!.....Keep reading for a VERY long story.....Also believe it or not this hack was made entirely with a Chromebook! More specifically the (Hisense Chromebook C11) with a site called "Cameyo."

2. Story

=====
Two years after the events of Zelda II, an 18 year old Link, was sleeping in his nice bed in North Castle. He was having a dream about when he started his first quest, but he awoke with a yell when he noticed his dream wasn't right. When dreaming he witnessed fighting Ganon, and afterwards when he tried to rescue Zelda she was nowhere to be found in the next room! So when he had witnessed that dream his mind was filled with worry, because the Triforce of Courage could give you small visions of the future. This made him VERY concerned for Zelda...it was 6:28 am on the Hyrule clock. And it came to pass that he got out of his bed, and his blue robe then he noticed his arm was slit open just a little and was bleeding... He felt pain as he equipped himself with his basic weapons and armor which were the cool and green "Hero's Tunic," his Small Shield that he fixed and added a Triforce design on the front instead of a cross long ago, and his.....well all his swords weren't in his storage chest!? This made him very mad, so he left his room swiftly as possible while in pain then noticed the Triforce of Wisdom was missing!! So Link, now very eager to go to the Death Mountain Area where his first quest was, started to leave, but just when he was heading out through the castle

gates he saw Impa calling his name. He turned back and told her about his dream and where he was going. Impa surprisingly stopped Link from talking and said , "I KNOW" in a deep voice. Link knew just then who's voice it was! It was Ganon's Voice! He was about to unsheathe his magic sword, but stopped and shouted AAAAHH, because his arm was bleeding and he forgot that his swords were missing. Ganon then magically transformed out of the Impa disguise, and grabbed Link...Ganon started speaking then said, "HAHAHAH MY MOLBLINS BROKE ALL THOSE USELESS SWORDS JUST SO YOU COULDN'T STOP ME!!" Link then thought how is HE alive!!...I defeated him 8 years ago!! Ganon had the Triforce of Power and can read minds and answered "MY MOLBLINS USED YOUR VERY MAGIC SWORD (BEFORE THEY BROKE IT) TO SLIT YOUR ARM AND THEY PUT YOUR BLOOD IN A BOTTLE TO SPRINKLE IT ON MY ASHES TO REVIVE ME. ALSO SINCE YOU SLEEP SO SOUNDLY YOU DIDN'T FEEL A THING..HAHHAHA NOW I'VE RETURNED!!!! YOU MUST HAVE NOTICED THAT ZELDA, AND THE TRIFORCE OF POWER ARE GONE I'VE RE- STOLEN, OR KIDNAPPED THEM HAHA.....ZELDA MAGICALLY HID THE TRIFORCE OF WISDOMS PIECES AGAIN AND SHE TOLD ME THAT YOU ONLY CAN FIND THEM AS I WAS KIDNAPPING HER!!! When Link heard this he was mostly concerned about Zelda and not the Triforce thinking ,OH NO Zelda is gone again!!! Ganon then said , "IN MY SPIRIT FORM I ORDERED THOSE DUMB MOLBLINS TO KILL YOU AND (THEN) TAKE YOUR BLOOD, BUT THEY WERE TOO STUPID. I YELLED AT THEM ALL AND TOLD THEM TO LEAVE MY NEW HOME "RED ROCK"NOW SOME OF THEM HATE ME AND HAVE BETRAYED ME!!! ALSO WHERE IS THE TRIFORCE OF WISDOM.....YOU WONT ANSWER!!! FINE!!!!BYE *HERO OF HYRULE* GAHHAHAHA!!! Ganon Threw Link all the way to the Death Mountain area! And he was thrown so high that he was in the clouds!! Link started falling and falling and falling , he was screaming as he fell... as usual! It was then full morning by the time this was happening.....Then SMACK!!! Link hit the ground so hard that he was in a coma for 5 weeks.

The reason how Link survived was, because of the Triforce of Courage's power that was in his soul.

While Link was in the coma a nearby wise old man noticed Link asleep and then magically moved him into his cave. After five weeks of sleeping he awoke and the old man said, "Young Hero you have been sleeping for quite awhile hohoho!" Link arose and Immediately asked the old man how long he was asleep in a quiet voice. And the old man said five weeks. Link explained how he was here, and all that happened. Then the old man said. Wait if so shouldn't you have my sword. Link made a face that meant "huh". He was confused until he noticed the old man was the same person who stated "It's dangerous to go alone take this!" to him 8 years ago. Link smiled and the old man smiled back and said, "Hyrule has naturally changed dramatically in just eight years!! The forest's ,the mountains, and the caves have all changed except for the old labyrinths. I understand if your sword has gone missing. I have a hobby of making wood swords I'll make a new, and Better looking, version. Go outside a while until I'm finished making it. It takes silence to craft a wood sword. Link waited a few hours and then the old man called his name..... And so (YOUR) adventure begins! Are you ready to take on the changed land of Hyrule!! Are you ready to take on the same dungeons, but with more powerful enemies!!! Are you ready to explore and meet new people and find new secrets!!! Zelda is waiting for you to rescue her!!! (Have fun playing!! ~CXS~)

3.Controls and Game Changes

=====

Controls are the same as the NES

- D - Pad (Move)
- A button(Sword)
- B button(Selected Item)
- Start button(Subscreen) & (Map in Dungeons)
- Select button(Pause/Screen Stop) & Move Cursor)

The Overworld has been changed completely.And I made sure to “pack this hack”with tons of secrets!! Be smart when playing. I've changed every sprite except for the Overworld, and Underworld tiles. I've added my initials to the title screen, and now it says, “CXS LEGEND OF ZELDA - HYRULE’S DOOM. As Said in the story the labyrinths haven't changed but more powerful enemies have been put in dungeons making them harder... Hahahah;) Link now looks SUPER AWESOME!! He looks like how he looks from the original zelda 1 manual!!PLUS HIS HAT & HAIR MOVES WHEN HE WALKS!! DAT IS DOPE!! P.S You'll NEVER find the power bracelet, or blue ring UNLESS you are good at finding SECRETS!

4.Tips(Guide to Level 1)
=====

Be Smart, Level 1 is where Level 9 used to be
here's a mini starter Walkthrough, or Guide to Level 1.

When you load the rom file watch the intro. (In the intro the letter D stands for the word (THE),
and the P.O.H. Zelda means PRINCESS OF HYRULE ~Zelda~

P. O. H.

Create a file (typing DOOM as your name starts you in the 2nd quest instead of typing ZELDA)
After starting the file enter the cave, and take the sword that the old man finished making, then
exit. Walk east once, north five times, west twice, south once, west once, and north twice. You
should now be at at the fairy screen. Recover your LIFE meter it if needed. Now go east twice,
north once, and west twice. You should now be at Level 1, good luck trying to beat it!!haha=D.
